

Our school has been working diligently to figure out the best way to make remote learning easy and simple for all. Your students were notified on Friday of the possibility of school closures. All of the students present on Friday said they had access to the internet and either a computer or cell phone for learning. Your students are already well versed using our digital learning platforms called Health Center 21 (<https://learn.aeseducation.com/>) and Mastery Connect (<https://student.masteryconnect.com/>) This makes our students one step ahead with the remote learning process. I anticipate the transition to be smooth and stress free as they keep up with their studies.

My main form of communication with the students will be via their student emails cc'd above and the Remind 101 app. If you or your student are not registered for Remind please join by texting 81010 and putting either @connorhs for Health Science 2 or @connorhsp for Health Science 1.

Below are instructions on how students can access their electronic worksheets in HC21. First step is to select the assigned lesson module. Second step is to click "open electronic worksheets". They can toggle between screens to watch video/instructional information and complete the electronic worksheets.

The screenshot shows a web browser window with multiple tabs open at the top. The active tab is titled 'index.html#/courses/112819/assignments/preview'. Below the tabs, there's a navigation bar with buttons for 'Overview', 'Assignments', 'Students', 'Grades', 'Resource Center', 'Help', and a user profile icon. The main content area is titled 'HS2 AM' and 'HS2 AM Course'. It displays a table with ten rows, each representing a module. The columns are 'Select a Module', 'Due Date', 'Assignments Completed', and 'In-Prog...'. The modules listed are: Health Career Exploration, Health Care Systems (Legacy), Medical Terminology, Infection Control, Communications, Medical Mathematics, Wellness and Nutrition, Client Status, Safety Precautions, and Emergency Care. Each row shows a count of assignments completed (e.g., 0 of 4, 0 of 5, etc.). A large callout box with a grey border and rounded corners is positioned over the first few rows. Inside the box, the text 'Students will see the modules that you picked for the course.' is displayed above a bold orange arrow pointing left towards the 'Select a Module' column. The arrow contains the text 'Click a module.'

Select a Module	Due Date	Assignments Completed	In-Prog...
<a href="#">Health Career Exploration</a>		0 of 4	
<a href="#">Health Care Systems (Legacy)</a>		0 of 5	
<a href="#">Medical Terminology</a>		0 of 5	
<a href="#">Infection Control</a>		0 of 5	
<a href="#">Communications</a>		0 of 7	
<a href="#">Medical Mathematics</a>		0 of 7	
<a href="#">Wellness and Nutrition</a>		0 of 5	
<a href="#">Client Status</a>		0 of 6	
<a href="#">Safety Precautions</a>		0 of 4	
<a href="#">Emergency Care</a>		0 of 8	

A screenshot of a computer screen displaying the Applied educational systems software. A large red arrow points downwards towards the software window, and a red oval highlights the top right corner of the window. The software interface shows a navigation bar with tabs like 'My Classes', 'Overview', 'Assignments', 'Students', and 'Grades'. The main content area is titled 'View as Student' and displays the 'Anatomy and Physiology Module' under 'HS2 AM'. A table lists various body systems: Introduction to Anatomy and Physiology, Integumentary System, Skeletal System, Muscular System, Nervous System, Sensory System, Cardiovascular System, and Lymphatic System. To the right, a box titled 'Nervous System Unit' contains links for 'Open Electronic Worksheet', 'Lesson 1: Nervous System', 'Lesson 2: Diseases and Disorders', and 'Start Quiz'. The status bar at the bottom indicates 'Heather Connor'.

The assignments will have due dates with timed deadlines.

I will be available from 8:30am-11:30pm and 12:30pm- 4:00pm to answer questions or provide help when needed. I can be reached by email [atheather.connor@dcctc.org](mailto:atheather.connor@dcctc.org) or by cell phone at 803-759-0443. I will try to check emails several times a day but texting me prior to email communication may get a quicker response. I am also available for video chat should this be needed.

Please be on the lookout for additional emails from me today with information regarding assignments particular to your student's class. With an open mind and eagerness to learn we will make the best of this academic situation. 😊

Warmest regards,

Mrs. Connor
